

Thank You

but

the announced pay increases leave us

26 percent behind

the industry top in total compensation—not to mention increased health insurance costs and no improvements in work rules.

We are the most productive Flight Attendants in the industry. We generate customer satisfaction ratings that are among the industry's best. We consistently contribute to continuing record profits at Delta Air Lines. With all that, we deserve much, much better.

It's more clear now than ever that we need a Voice. It's time for a mature, direct relationship with Delta Corporate based on respect and equality.
