

Delta Corporate's Spin on the United Flight Attendants' Early Out:

United is in poor financial position and it is trying to encourage Flight Attendants to leave to cut costs.

Not true. Here are the facts:

BOTH United and Delta reported approximately \$800 million in second quarter net profits. Doesn't sound like either airline is having a rough time financially.

source: <http://finance.yahoo.com/q/is?s=DAL>, <http://finance.yahoo.com/q/is?s=UAL>

The fact is, United Flight Attendants have a Voice and that's why their Early Out was more than double Delta Corporate's offer.
