

OK. But **not** OK?

A Voice, says corporate, works fine for pilots. But it's 'different' for us.

"If you look back over the past eight years, we've always been able to partner with our pilots and figure out what we need to do to keep Delta at the top of the industry. Our track record is the best in the industry in that regard."

—Delta President, Ed Bastian, *Forbes* 4/25/14

"We have a productive and proactive relationship with our pilots and ALPA, focused on winning in the marketplace and addressing our business challenges and opportunities together."

—Delta Spokesperson Kate Modolo, *Bloomberg Business Week*, 8/3/14

It's time for a mature relationship with Delta corporate.
